Generative AI Tools: ElevenLabs, HeyGen, Adobe Firefly, Seedance, Google Omni Flash

Automation & Workflow: AI Avatar Generation, Lip-Sync Rendering, Custom Scripting (Multi-Angle Camera Generation), Automated Asset Pipelines

Languages: Arabic (Native), English (Advanced)

PROFESSIONAL EXPERIENCE

Technical Video Editor & Digital Content Creator Oct 2022 – Present

Freelance / Self-Employed *Lebanon*

- Designed and animated 3D logo reveals, kinetic typography, and particle-driven motion graphics in Adobe After Effects, alongside VFX shots and custom 3D camera animations for cinematic fitness, promotional, and entertainment video content.
- Engineered an automated UGC affiliate marketing pipeline around a photorealistic AI avatar, integrating Adobe Firefly, ElevenLabs, HeyGen, and Google Omni Flash to generate lip-synced promotional content.
- Accelerated editing turnaround by deploying a custom script that generates four distinct camera angles from a single video input, while delivering final cuts and color grading in Premiere Pro and CapCut optimized for social media retention.

Video Editing & Graphic Design Intern Jun 2022 – Aug 2022

CIS College *Khalde, Lebanon*

- Edited and polished video projects in Adobe Premiere Pro and After Effects, ensuring consistent visual flow and precise audio-video synchronization.
- Designed lower thirds, supporting visual assets, and promotional graphics in Adobe Photoshop for seamless integration into video projects.
- Collaborated on creative briefs in a fast-paced on-site environment and delivered finalized media assets on tight deadlines.
